

Business Fiber Unleashed

A background image of a business meeting in a modern office. Five people are seated around a table, engaged in discussion. A glowing network of white and blue nodes connected by lines is overlaid on the image, symbolizing a fiber network. The nodes are concentrated around the people and extend across the frame.

RELIABLE NETWORK | RESPONSIVE PEOPLE | COMMITTED TO CUSTOMERS

Dense Fiber So Close You Can Taste It

We've Got You Covered!

Texas

- **Fully Divers, High-Capacity Fiber Routes, Cost Effective, Low-Latency Solutions**
- **10+ fully-diverse MAR** (Metro Aggregation Route) **fiber rings** for redundancy and protection
- **10 Gbps & 100 Gbps Capability**
- **Diverse IP Peering Points/ Drains** – Premium Tier 1 IP Global IP Providers
- **Easy Access** to 75+ Datacenters
- **Extensive Coverage** – Further reach into rural areas
- **Fiber Route Diversity** – Route Protection Options Available
- **Premier Cloud Access** – Quick On-ramps to Top Tier Cloud Service & Web Hosting Providers

Atlanta, GA

- 12 fully-diverse MAR (Metro Aggregation Route) fiber rings for redundancy and protection
- Multiple layers of protection
- 30+ Datacenters, core PoPs
- Alternative routes to avoid Sandy Springs

Tampa, FL

- 6 fully-diverse MAR (Metro Aggregation Route) fiber rings for redundancy and protection
- 8+ Datacenters, core PoPs, & carrier hotels
- Multi-Directional, Fiber routes in and out of St Petersburg

N. Virginia, DC, Maryland

- 7 fully-diverse MAR (Metro Aggregation Route) fiber rings for redundancy and protection
- 66+ Datacenters, core PoPs, & carrier hotels
- Multi-Directional, Fiber routes in and out of St Petersburg

Local Provider

With a construction background, FiberLight has the experience, know-how, and expertise to design, build, execute, and maintain complex fiber networks.

High-Touch Customer Experience

Our entire team is singularly focused on delivering a customer-first experience.

Services That Exceed

Provider of diverse, high-capacity network infrastructure to meet your network needs.
Adaptable and flexible. | Custom-built fiber solutions.

Igniting Digital Transformation

Exceptional up-time for business continuity, seamless integration and interaction.
We're ready when you are.

Network Infrastructure

Density

- High-count fiber routes
- Up to 1728 count strands in key metros
- Connected to 170+ Datacenters
- 17,970+ Route Miles of Fiber

Diverse

- Network diverse from ILEC & MSO routes
- Ability to construct direct, custom-built paths
- Diverse entrances into buildings

Deep

- Nearly 90% of fiber is 3.5' underground
- Increased security & reliability

Distinct

- Network far reaching into rural areas
- Fiber lies in places our competition does not
- Alternative paths and conduit from other carriers

Mission Critical Solutions for High-Performance Networks

Dark Fiber

- Virtually Unlimited Bandwidth
- Increase Control
- Maximize Security
- Enjoy Peace of Mind

Data Center Interconnect

- Increase Efficiency
- Custom Paths built for Customer Specifications
- Enable Bandwidth-Intensive Applications
- Increase Reliability
- Enjoy Faster Turn Up

Dedicated Internet Access

- Fully Dedicated Bandwidth
- Diverse Paths from MSO & ILEC
- Next Generation Data Network interconnecting to Key Data Centers
- Simplified Private Infrastructure

Ethernet Transport

- Seamlessly Extend Your Network
- Protected Core Infrastructure
- Offer More Reliability
- Connected to over 170 Data Centers

Cloud Connect

- Increase Performance
- Optimize Financial Resources (save egress fees)
- Streamline Network Management
- Maximize Security with a Dedicated path to your public cloud provider
